MONDAY MORNING, NOVEMBER 17.

THE Clarksburg News (Dem.) publishes ex-Speaker Molfett's letter, but does not seem greatly enthused over his return to curiosity over the result. The satisfied the fold. It expresses the opinion that and dissatisfied accepted the situation-at prior to writing it he had heard something least for the time being. We now have drop, in the shape of election returns. If drop, in the shape of election returns. If this is to be a sample of the greeting given to the ex-Speaker, we are afraid that he will have to serve a long time in the unofficial ranks of the Democracy before winning their confidence.

Some money; that is, those who bought as special doubt at rest so far as this county their confidence.

An Alarmed Democrat Who Sees Visions of a Possible Republican Victory in West Virginia. Clarksburg News.

Clarkshang News.

The recent elections have greatly encouraged the Republican party in this farmer's boy \$50 and out he goes to specu-State, and from the rumors put in the air late in wheat, cattle or sheep instead of keping at work on his father's farm. Of course hopeful of coming victory. The Democracy may take warning now, as well as later. The Republican party of this State will make one of the strongest efforts of its life to wrest the State from Democratic control. They are thus early at work laying the ropes and setting up the pins for success. Their organization by next October will be as perfect as unlimited money, wise and secret counsel, great energy and bitter partisanship can make it. As evidence of this some of the indiscreet Republicans in Ohio county are making their brags that that county will be theirs, as sure as fate, next October. You forget, Mr. News; Ohio county is "their's" already. Ask Ben Wilson about the Congressional election returns of 1878. He can post you. Ask him if he counts on Ohio county for re-election.

At that time many wheat fields by the way were looking very fine, but last week I took a drive of about 125 miles, passing over the same road, and I was sorry to see the condition of many fields that were then looking fine but now perfectly dead, as if they had grown early summer crops. Very many have sown the second time, but the farmers had quit seeding as the ground was too drive start. the second time, but the armers mad quit seeding, as the ground was too dry to start the wheat. The greatest destruction of wheat was on sandy ground.

A correspondent of the Tyler county

Jackson expressed himself earnestly in favor of the Wheeling and Parkersburg Railroad project. He is quoted by the Sculind of that place as follows:

The Mayor spoke of the manifested interests by the citizens of Wheeling in the proposed Parkersburg and Wheeling failroad. He expressed himself as in favor of the scheme, and gave it as his opinion that the completion of the road would add materially to the wealth and prosperity of the city, would cause the erection of manufacturing interests in the city, and that it would be the means of opening up a competition with the b. Why is it that so few of the country press publish local market quotations in their respective papers? We do not observe any in the Moundsville Reporter, Gration Scatinel, Clarksburg papers, Beverly Enterprice, St. Clairsville Gazette, and a number of other papers.

The Condition of the Fall Wheat.

There is a good deal of diversity in the reports that reach us from the surrounding country in regard to the condition of the wheat sown this fall. From out in Pennsylvania we have favorable reports, but from down the river they are rather dubious. Mr. John Eoff, at Creeap's Grove Landing, says that he has twenty acres in wheat that look as if they wolld not pay the expense of sowing. Mr. H. S. White, of Bellton, Marshall county, who has 400 acres sown, tells us that he regards the damage equal to 25 per cent of his sowing. A correspondent of the Sisters' the country opened up to immigration, and to have an outlet for the resources of the country opened up to immigration and the view of the country opened up to immigration and to have an outlet for the resources of the country. We want the wild land cut

sproved by it. What we need is to have the country opened up to immigration, and to have an outlet for the resources of the country. We want the wild land cut up into small farms, cleaned out of the hunds of land-jobbers and speculators and reduced to profitable cultivation. We need educated and economical tillage, and, in the way of stock raising, we need more sheep for our hill side lands.

The late rains have done a great deal of good in our midst. The pastures have been revived, and the fall wheat well moistened with much needed water. Our streams, springs and wells also have been replenished. The change from drouth to rain has been worth a great deal to this region.
